Combining the talents of Casey Lee Williams (vocals), Martín de Lima (piano/guitar), Augusto Bussio (drums/guitar), and Peter de Reyna (bass), **Ok Goodnight** is a modern progressive metal band based out of Boston, Massachusetts. The group formed when they were all studying at Berklee College of Music.

In early 2019, the band released their first single titled "*Rapture*". On October 31st of the same year, they released their debut album "*Limbo*", featuring bassist Ron Bernhaut and backing vocalist Elizabeth Hull. On November 13th, 2020, followed the "*Under the Veil*" EP featuring bassists Peter de Reyna (Seven Spires) and Jacob Umansky (Intervals).

Ok Goodnight released their second full-length album independently on June 2nd, 2023. "*The Fox and the Bird*" is a concept album about animals and myths telling the tale of a drought-stricken land and two friends' perilous quest to bring back the rain. As the story unfolds, the music moves from acoustic softness to electric heaviness, all the while depicting a bustling wilderness with vibrant sound design.

The collaborative effort that went into crafting this album, which saw every member of the band play an important role in both songwriting and production, naturally pushed the quartet's sound to the next level. Indeed, their new material keeps surprising the listener at every turn, taking you on an emotional journey full of pop-infused melodies, jazzy time changes, and crushing metal riffs.

In July 2023, they embarked on their first tour and played to sold-out crowds all over the US East Coast and Midwest alongside their friends from Challenger Deep.
